CROWDSTRIKE

FALCON ENDPOINT PROTECTION ENTERPRISE

Stop breaches with full endpoint protection

BUILT TO STOP BREACHES

CrowdStrike Falcon® Endpoint Protection Enterprise sets the new standard in endpoint security with the first and only cloud-native security platform proven to stop breaches by unifying next-gen antivirus (NGAV), endpoint detection and response (EDR), managed threat hunting and integrated threat intelligence, in a single cloud-delivered agent.

KEY PRODUCT CAPABILITIES

AI-POWERED NGAV

- Protects against the entire spectrum without requiring daily updates

- Combines the best prevention technologies — machine learning, artificial intelligence (AI), indicators of attack (IOAs), exploit blocking and more — to stop ransomware, and malware-free and fileless attacks

- Covers the gaps left by legacy AV and fully protects endpoints online and offline

INTELLIGENT EDR

- Prevents silent failure by capturing raw events for automatic detection of malicious activity, providing unparalleled visibility, proactive threat hunting and forensic investigation

- Unravels an entire attack in the easy-to-use CrowdScore™ Incident Workbench enriched with context and threat intelligence data

- Provides powerful response action to contain, investigate and remediate compromised systems

24/7 MANAGED THREAT HUNTING

- An elite team of security experts proactively hunts, investigates and advises on activity in your environment to ensure threats and high-priority alerts aren't missed

- Alert prioritization uniquely pinpoints the most urgent threats in your environment and resolves false positives

- Guided response provides clarity on an attack, showing you what to do next

KEY BENEFITS

- Stops breaches and simplifies endpoint protection

- Provides unparalleled real-time and historical visibility across endpoint events and activities

- Accelerates investigation and remediation and ensures stealthy attacks don't go undetected 24/7

- Orchestrates and automates complex workflows with Falcon Fusion to simplify security operations and accelerate response

- Shows you the big picture with CrowdScore, your enterprise threat score

FALCON ENDPOINT PROTECTION ENTERPRISE

DEVICE CONTROL

- Provides detailed visibility on USB device usage
- Enables granular policy enforcement to ensure control over USB devices used in the environment

FIREWALL MANAGEMENT

- Makes it easy to create, manage and enforce policies
- Defends against network threats and provides instant visibility to enhance protection and inform action

INTEGRATED THREAT INTELLIGENCE

- Enables you to fully understand the threats in your environment and easily prioritize responses with threat severity assessment
- Eliminates guesswork so you can respond to threats decisively
- Automatically determines the scope and impact of threats found in your environment
- Provides a broader set of indicators of compromise (IOCs) for faster, better protection

ABOUT CROWDSTRIKE

CrowdStrike Holdings, Inc. (Nasdaq: CRWD), a global cybersecurity leader, has redefined modern security with the world's most advanced cloud-native platform for protecting critical areas of enterprise risk — endpoints and cloud workloads, identity and data.

Powered by the CrowdStrike Security Cloud and world-class AI, the CrowdStrike Falcon® platform leverages real-time indicators of attack, threat intelligence, evolving adversary tradecraft and enriched telemetry from across the enterprise to deliver hyper-accurate detections, automated protection and remediation, elite threat hunting and prioritized observability of vulnerabilities.

Purpose-built in the cloud with a single lightweight-agent architecture, the Falcon platform delivers rapid and scalable deployment, superior protection and performance, reduced complexity and immediate time-to-value.

CrowdStrike: **We stop breaches.**

CLOUD-NATIVE PLATFORM

Reduces cost and complexity by eliminating the need for constant signature updates, on-premises management infrastructure and complex integrations

Enables the industry's fastest deployment and rapid operationalization — without requiring a reboot after installation

Only CrowdStrike provides full, automated protection across endpoints without impacting endpoint performance and end-user productivity
