

FALCON ENDPOINT PROTECTION PRO

Provides true next-gen AV with integrated threat intelligence response

UPGRADE TO CUTTING-EDGE DEFENSES

CrowdStrike Falcon® Endpoint Protection Pro offers the ideal AV replacement solution by combining the most effective prevention technologies and full attack visibility with built-in threat intelligence and response. Powered by the cloud and via a single lightweight agent it operates without the need for constant signature updates, on-premises management infrastructure or complex integrations. Falcon Pro makes it fast and easy to replace your AV and get even more: superior prevention, integrated threat intelligence and immediate response.

KEY PRODUCT CAPABILITIES

AI-POWERED NGAV

- Protects against the entire spectrum without requiring daily and cumbersome updates
- Combines the best prevention technologies — machine learning, artificial intelligence (AI), indicators of attack (IOAs), exploit blocking and more — to stop ransomware, and malware-free and fileless attacks
- Covers the gaps left by legacy AV and fully protects endpoints online and offline

FULL ATTACK VISIBILITY

- Unravels an entire attack in one easy-to-grasp process tree enriched with contextual and threat intelligence data
- Provides unparalleled alert context and visibility
- Keeps detection details for 90 days

KEY BENEFITS

Enables you to migrate with confidence

Replaces AV quickly and easily

Simplifies endpoint protection

Protects against the entire attack spectrum

FALCON ENDPOINT PROTECTION PRO

DEVICE CONTROL

- Provides detailed visibility on USB device usage
- Enables granular policy enforcement to ensure control over USB devices used in the environment

FIREWALL MANAGEMENT

- Makes it easy to create, manage and enforce policies
- Defends against network threats and provides instant visibility to enhance protection and inform action

INTEGRATED THREAT INTELLIGENCE

- Enables you to fully understand the threats in your environment and easily prioritize responses with threat severity assessment
- Eliminates guesswork so you can respond to threats decisively
- Automatically determines the scope and impact of threats found in your environment

CONTROL AND RESPOND

- Provides powerful response action to contain and investigate compromised systems
- Ensures on-the-fly remote endpoint access for immediate action with surgical precision
